Dear AUB Students,

From this point forward you can now access all AUBsis services using your AUBnet account, and thus you will no longer need to use your AUBsis user ID and PIN. We understand that resetting the AUBsis passwords have caused many of you considerable inconvenience, and we are pleased to have worked with our colleagues in IT solve this problem.

Only new students will be required to activate their AUBnet account to get access to the digital services.

Accordingly, we will be removing the "Enter Secure Area" link under the AUBsis portal, and we are asking you to refrain from using this link to access AUBsis (in case you bookmarked it) to ensure that your account is not accidentally locked.

Instead, use your AUBnet username and password to access AUBsis services such as " Student Profile" and "Course Registration" under the AUBsis portal.

Kind Regards,

Office of the Registrar
