#1 The Problem

- Lebanon only recycles 6% of its collected waste
- 94% of the rest is either buried underground or dumped into landfills
- 4200 tons of wastes are collected every day

#2 Our Solution

RecycleMe

recycling made easier

#3 Technologies

#4 Mobile Application

#5 Future Work

- Deploy in a recycling pipeline
- Avoid the confusion between plastic and glass
- Get more data
- Use models that are more robust
