Dedication

AUB Psychology Faculty Research Contributions to Social Sciences: 1870-2020 is dedicated to psychology professors who nourished me academically during my studentship at the American University of Beirut (AUB) from 1965 to 1971: Drs. Ernest Dalrymple-Alford, Dale Michael Atrens, John Chimienti, Conrad Consalvi, Lutfi Najib Diab, Levon Hagop Melikian, Edwin Terry Prothro, Joel Saegert, Irving Francis Tucker, and Umayma S. Yaktin. I am eternally grateful to them because they helped shape my own theoretical and practice formulations vis-à-vis cultural clinical psychology, cultural health psychology, and cultural positive psychology.

Preface

AUB Psychology Faculty Research Contributions to Social Sciences represents the scholarly activities of mental philosophy/psychology faculty at AUB from 1870 to 2020. Publications are listed by year rather than author under five historical periods as outlined in *A History of Academic Psychology at AUB: 1870-2016* to allow for future quantitative and qualitative analyses such as thematic trends. The list is based on such databases as the Weldon Library Archives, the Faculty of Arts and Sciences (FAS) Annual Reports, and literature searches (JSTOR, Google Scholar, PsychInfo) on individual faculty members.

I am thankful to FAS Deans Khalil Bitar, Patrick McGreevy, and Nadia El Cheikh for their leadership and support over the years. I am also grateful to my students for their insatiable interest in psychology and my colleagues in the Department of Social and Behavioral Sciences and the Department of Psychology for their dedication to the scientific discipline of psychology and their unfailing collegiality. They include Drs. May Awaida, Nidal Daou, Arne Dietrich, Tima El- Jamil, Charles Harb, Alaa Hijazi, & Rim Saab.

Special thank you to Yasmine El Hajjar for her kind assistance in the publication process.

About the Author

Educator, advocate, writer, historian, and globetrotter, **Shahé Sarkis Kazarian**, emeritus professor of psychology, is the author of twelve academic books about multiculturalism, diversity in law enforcement, and cultural clinical, cultural health, and cultural positive psychology. His volume of poetry, and historical novel with his wife unveil personal and social experiences of self-identity, collective trauma, and human rights to provoke deep concern for history, morality, citizenry, social justice, and peace. As philanthropists and social activists, he and his spouse support child education, art, and culture; and are collaborating on the sequel to their acclaimed historical novel, *Narrative of My I*.
