Given the many permutations possible of a multiple-choice admissions process, the following representation is meant to give a prospective student the best indication of the chances of her or him being accepted into the preferred major. It also gives the faculty/school an indication of its ability to attract these students to register.

Applicants are the number of students registered, plus the number of students accepted into their highest priority major who did not register, plus the number of students who were not accepted based on their highest priority major.

Accepted students include the number of registered students plus the number of students accepted into their highest priority major.

Registrants are those who registered in the faculty/school indicated.

Note : Freshmen are counted here
