ArD Protocol for Part-time Hire | 22 November 2017 | Final Draft

Candidates interested in a part-time teaching position in Architecture, Graphic Design, or the master's programs of Urban Planning and Policy/Urban Design are invited to email a completed application to ard_PT@aub.edu.lb.

The application must contain:
i) a letter of intent detailing why you are applying to teach in the department, and how you can contribute to its mission statements (found below)
ii) a detailed CV
iii) a portfolio of professional work and/or samples of teaching material (course syllabi and copies of student work)
iv) the names and contact information of two references.

The application should be one single PDF not larger than 15 MB.

Only completed applications will be considered, and consideration is based upon departmental need. You will hear from the department only if you are shortlisted for a position. The deadline for applications is March 31 for the fall semester and October 31 for the spring semester.

Mission Statements:

> The Architecture program is to offer students a first professional degree that qualifies them to practice architecture. The program aims to graduate well rounded intellectuals, critical thinkers and skilled professional architects who are committed to the advancement of the field and the practice, and who have a sense of responsibility for the built environment and the natural resources. Design is approach as sa research-oriented process that is culturally grounded and theoretically informed and technically advanced so as to enable graduates to become lifelong learners and to take a leading role in the professional practice both in Lebanon and the region.

> The Graphic Design program offers a professional degree with a well-rounded scope covering the multiple practice areas of the discipline. The curriculum focuses on a solid training in the theoretical, practical and technical aspects of graphic design, while promoting a socially responsible practice and an awareness of both local and international developments in the field. The goal of the program is to produce graduates with expert design proficiencies, grounded in historical knowledge and capable of adapting graphic and visual tools to the changing demands of the design industry. Students develop intellectual and critical thinking skills and contribute to aesthetic and technological innovations by generating ideas in response to a wide range of design challenges. The program is committed to the role design plays in the multicultural and multilingual contemporary regional context, and provides a creative teaching and learning environment to address these issues.

> The Masters in Urban Planning and Policy and Masters in Urban Design programs aim to prepare highly qualified, well-rounded professionals who are able to address the multi-faceted issues of urban planning, policymaking and urban design in today's urban environments in Lebanon and the region. MUPP is designed to provide a broad professional education in urban planning. MUD emphasizes the mastery of the design tools necessary for the effective practice of urban design. For MUPP, emphasis is placed on the development of multidisciplinary analytical skills necessary to address contemporary urbanization as well as the mastery of the tools and approaches adopted in the contemporary practice of urban planning and policy making. For

MUD, they are also exposed to a multidisciplinary understanding of contemporary urban challenges, and they learn to integrate design tools with policy strategies and institutional analysis, through a studio-based approach. The programs guide students in defining a specific area of expertise within the wider practice of urban planning and urban design and in locating their expertise in relation to other professions in the city.
